Editorial UOC, 2015. soft. Book Condition: New. Los datos geográficos están adquiriendo cada vez más importancia, tanto social como económica. La gestión, «curación» y preservación de estos datos debe llevarse a cabo por equipos multidisciplinares compuestos tanto por geógrafos o informáticos, como por bibliotecarios. Las bibliotecas y las unidades de información pueden ejercer un papel clave en el ciclo de vida de los datos geográficos, mediante la aplicación de sus conocimientos y saber-hacer acumulado, y ejerciendo un papel dinamizador en la comunidad universitaria. Sin embargo, la oferta de servicios de información geográficos desde las bibliotecas académicas, con larga tradición en algunos países, son aún percibidos como lejanos en el contexto español. Este libro quiere mostrar a la comunidad bibliotecaria de qué forma puede entrar en la revolución de los datos geográficos, participando en su gestión y beneficiándose de su uso.
