paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 178 Publisher: National Defence Industry Press Pub. Date :2008-7-1. This book is filled sudden Zhejiang University. editor of the probability theory and other mathematical statistics textbooks and supplementary books. The book is divided into nine chapters. covering the basic concepts of probability theory; random variables and their distribution; multi-dimensional random variable and its distribution; numerical characteristics of random variables; law of large numbers and central limit theorem; samples and sampling distributions; parameter estimation; assumptions test; analysis of variance and regression analysis. According to learning requirements of each chapter. summary. typical examples. exercises. questions and answers organized. This book can be used as engineering class. administered by the undergraduate students of probability theory and mathematical statistics courses counseling books and PubMed review books. but also suitable for graduate students and other ordinary people to learn information. Contents: Chapter 1. the basic concepts of probability theory 1.1 Summary 1.1.1 basic probability theory. the concept of the three most important events between 1.1.2 and 1.1.3 to calculate the probability of computing formulas and probability model typically 1.2 Example 1.2.1 The relationship between the abstract and the probability of the event 1.2.2 Concepts 1.2.3 1.2.4 complex event probability 1.3 probability model geometry exercises and answers Chapter 2 random variables and their distributions and random variables 2.1 Summary 2.1.1 distribution function 2.1.2 Discrete random variables and its distribution law 2.1.3 Continuous random variable and its probability density function of random variable distribution 2.1.4 2.2 2.2.1 Typical examples of discrete random variable distribution of the determination of law 2.2.2 discrete random variable the distribution function of the problem 2.2.3 continuous random variables problem 2.2.4 continuous probability density distribution functions of random variables problem...
