

Cerebral Palsy and Early Stimulation

By Vykuntaraju K. N.

Jaypee Brothers Medical Publishers. Paperback. Book Condition: new. BRAND NEW, Cerebral Palsy and Early Stimulation, Vykuntaraju K. N., Cerebral palsy is a neurological condition caused by damage to the brain, which normally occurs before, during or soon after birth. Symptoms vary depending on the type of cerebral palsy - some children have difficulty walking, others may be profoundly disabled and require lifelong care (NHS Choices). This book is a comprehensive guide to the diagnosis and management of cerebral palsy for neurologists, paediatricians and postgraduate trainees. Divided into fifteen chapters, it guides readers through every step of the condition, from its history, epidemiology and classification, to its clinical features, diagnosis, and management, including a chapter on the probability of walking. This practical manual includes more than 80 images, diagrams and tables to enhance learning. Key points * Guide to cerebral palsy for neurologists, paediatricians and postgraduates * Step by step coverage from epidemiology and classification, to diagnosis and management * Includes chapter on probability of walking * Includes more than 80 images, illustrations and tables.
