LOW TEMPERATURE PHYSICS II / KÄLTEPHYSIK II

Springer

Book Condition: New. Publisher/Verlag: Springer, Berlin | 71 For a given value of I the field is independent of the geometrical composition of the coil inside the winding space. The actual number of turns and the cross section of the conductors is entirely determined by the impedance of the power supply to which the magnet should be adapted. In the case of low impedance (high current and low voltage) few turns of thick metal should be used. In the case...

Reviews

A brand new e book with an all new perspective. It can be rally fascinating throgh reading period. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Kobe Streich I**

I actually started looking at this publication. It normally is not going to expense a lot of. You are going to like the way the author publish this book.
