Reviews

It is really an incredible publication which i actually have possibly read through. It really is writter in easy phrases and not confusing. Once you begin to read the book, it is extremely difficult to leave it before concluding.

No other copy of the engraving in this reliable state has yet been discovered, the only ones in all other libraries being those taken from a retouched plate, an example of an impression of which will be seen on the left. The latter is one of the only three impressions known of the title-page of the edition of 1632 before the spelling of the word coppies was altered, a circumstance which, although apparently trivial, is of value as showing that it includes one of the earliest impressions from the plate after it had been used for the first folio. The following observations upon this proof-engraving are from the pen of the late F. W. Fairholt, F.S.A., - the portrait in this state of the engraving, is remarkable for clearness of tone; the shadows being very delicately rendered, so that the light falls upon the muscles of the face with a softness not to be found in the ordinary impressions. This is particularly visible in the arch under the eye, and in the muscles of the mouth; the expression of the latter is much altered in the later states of the plate by the enlargement of the up-turned moustache, which hides and destroys the true character of this part of the face.
